Year-Round Programs

Research Program (All Grades)

Co-author a research paper with **UC Berkeley faculty & submit it to renowned conferences,** explore global issues through lectures/ hands-on projects, receive a **mentor's recommendation letter**, dedicated support for **college/medical applications**. Earn **awards for leadership and scholarships**.

Access unlimited support within 9 months in a small group setting

Summer Programs

Research Internship Program (Gr. 8 - 12)

Gain **real-world research experience** by analyzing and exploring global emerging issues. Learn **data analysis**, and develop **problem-solving skills** through mentor's research/funding projects in small groups.

20 hours in 4-6 weeks, excluding individual/group research times

IVY Intensive/Interactive Program (Gr. 7 - 12)

Interact with **top faculty at MIT, Harvard, Stanford, & UC Berkeley** in **various subjects** & build **critical thinking through hands-on project**, and explore various fields to develop & deepen students' **perspective & interests**.

20 hours per week over 4-6 weeks

Critical Thinking Program via Reading & Writing

Engage in **critical thinking** through **literary analysis** with **deep discussions** in online group sessions, and receive **individual feedback** each week. This will empower students to build **effective verbal & written communication** early on.

90 mins per Weekly Session (excludes feedback on prompt responses)

This can be achieved by exposing students to/**discussing various articles and books** that connect **history, science, literature**, and **different world views**. Solve real-world global issues, **improves grades, essay writing** & **SAT/ACT prep**.
